Action Items

1. Sit down with your family and your completed “Our Amazing Trip” research sheets. Work out what things are the number-one priority for your family to see and do, what are secondary priorities, and what can you live without seeing. Rank them.
2. Then you’re going to start filling out your itinerary!!! Exciting!
3. Remember, you must leave some time free for rest days or part days. And leave some time to be spontaneous.
4. You’ve also got to factor in travel time and jet lag.
5. The last page of this workbook is your Travel Itinerary template. I’ve left the days blank so you can add the numbers, and you can print as many copies as you’d like for the length of your trip.
6. Have a go at your travel itinerary, take a photo, and show us in the Facebook group.
